CIES Eligible²

31 August 2017

- Value China ETF (the "Fund") is an index-tracking fund listed on the Stock Exchange of Hong Kong Limited ("SEHK") which aims to provide investment results that closely correspond to the performance of the FTSE Value-Stocks China Index ("Index").
- The Fund invests in emerging market and is subject to a greater risk of loss than investments in a developed market due to greater political, economic, taxation and regulatory uncertainty and risks linked to volatility and market liquidity.
- The Index may experience periods of volatility and decline and the price of units of the Fund is likely to vary or decline accordingly. As the Fund is not actively managed, the Manager will not adopt a temporary defensive position against any market downturn. Investors may lose part or all of their investment.
- There is no assurance that the Fund will pay dividends. The Manager may at its discretion pay dividends out of the capital of the Fund or pay dividend out of gross income while all or part of the fees and expenses of the Fund are charged to/paid out of the capital of the Fund. Dividends effectively paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Such distribution involving payment of dividends out of the capital may result in an immediate reduction of the Fund's net asset value per unit.
- Trading prices of units on the SEHK are subject to market forces and the units may trade at a substantial premium/discount to the net asset value of the Fund.
- An affiliated company of the Manager and Sub-Manager of the Fund assists with the compilation of the Index and accordingly potential conflicts of interests may arise.
- You should not make investment decision on the basis of this material alone. Please read the prospectus for details and risk factors.

Fund information as of 31 August 2017. Source: HSBC Institutional Trust Services (Asia) Limited, Bloomberg and FTSE.

1. © 2017 Morningstar, Inc. All Rights Reserved. 2. Value China ETF is one of the eligible collective investment schemes for the purpose of the Hong Kong Capital Investment Entrant Scheme (CIES). The CIES was suspended by the Hong Kong Government with effect from 15 January 2015 until further notice. 3. Fund performance, in HKD, NAV to NAV, with dividends reinvested and performance data is net of all fees. 4. There is no guarantee that such dividends will be made nor will there be a target level of dividend payout. 5. Yield is calculated based on the dividend per Unit divided by the ex-date NAV per Unit. It is estimated and for reference only and does not represent the performance of the Fund. All dollar amounts are in HKD unless otherwise stated. 6. The above profile is based on market consensus forecast as derived from S&P Capital IQ and Bloomberg. Harmonic mean methodology is applied to calculate the forecast P/E ratio and P/B ratio. Note that the manager's internal estimates may differ significantly from S&P Capital IQ and Bloomberg estimates. 7. Classification is based on Industry Classification Benchmark (ICB). Due to rounding, percentages shown may not add up to 100%. 8. The award recognizes ETFs issued by The Chinese Asset Managers Association of Hong Kong (HKCAMA) members and rank them based on one-year NAV tracking error with weekly periodicity from 1 October 2015 to 30 September 2016.

Investors should note investment involves risk. The price of units may go down as well as up and past performance is not indicative of future results. Investors should read the prospectus for details and risk factors in particular those associated with investment in emerging markets and the arrangement in the event that the Fund is delisted. The Fund's prospectus is available and may be obtained from website. Investors should also note that the Fund is different from a typical retail investment fund, in particular, units in the Fund may only be created or redeemed directly by a participating dealer in large unit sizes.
