

- Value Gold ETF (the "Fund") is a fund listed on the Stock Exchange of Hong Kong Limited ("SEHK"), which aims to provide investment results that closely correspond to the performance of the London Bullion Market Association Gold Price.
- The Fund only invests in bullion and may experience greater volatility due to single economic, market or political occurrences when compared to diversified mutual funds or unit trusts.
- The Fund has adopted a multi-counter and units are traded in HKD, RMB and USD on SEHK. The nature of the multi-counter may make investment in the units riskier than in single counter units or shares of an SEHK listed issuer. Investors without RMB or USD accounts may buy and sell HKD traded units only.
- RMB is not a freely convertible currency and is subject to foreign exchange control policies, as well as repatriation restrictions imposed by the PRC government. Investors whose base currencies of investments are not in RMB should take into account the potential risk of loss arising from fluctuations in value between such currencies and the RMB.
- The Fund does not insure its bullion and the Fund and unitholders could suffer a loss if the bullion held by the custodian is lost or damaged.
- As the Fund is not actively managed, the Manager will not adopt a temporary defensive position against any market downturn. Investors may lose part or all of their investment.
- Trading prices of units on the SEHK are subject to market forces and the units may trade at a substantial premium/discount to the net asset value of the Fund.
- You should not make investment decision on the basis of this material alone. Please read the prospectus for details and risk factors.

### Investment objective

The Fund aims to provide investment results that, before fees and expenses, closely correspond to the morning (London time) fixing price of gold per troy ounce quoted in US dollars, published by the London Bullion Market Association (LBMA). The trust is fully backed by physical gold stored in Hong Kong.

### Total Gold in Trust

Source: HSBC Institutional Trust Services (Asia) Limited and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated in base currency, NAV to NAV with dividend reinvested and net of fees.

1. BENCHMARK aggregates 12 monthly score sets for each fund between 1 Oct 2018 and 30 Sep 2019, and between 1 Oct 2017 and 30 Sep 2018, respectively. Monthly score sets are calculated by aggregating the 12-monthly rolling one-year, three-and five-year (USD) returns, and by adding a risk score for their risk-adjusted returns. Funds in the final score set with a negative Sortino ratio will be excluded from the assessment for the awards. 2. The management fee is a single flat fee to cover all of the Custodian's fee, Trustee's and Registrar's fees and other costs and expenses. Please refer to the Prospectus for details.

Investors should note investment involves risk. The price of units may go down as well as up and past performance is not indicative of future results. Investors should read the prospectus for details and risk factors, particularly those associated with the arrangement in the event that the Fund is delisted. The Fund's prospectus is available and may be obtained from website. Investors should also note that the Fund is different from a typical retail investment fund. Units in the Fund may only be created or redeemed directly by a participating dealer in large unit sizes.
