- Value Gold ETF (the "Fund") is a fund listed on the Stock Exchange of Hong Kong Limited ("SEHK"), which aims to provide investment results that closely correspond to the performance of the London Bullion Market Association Gold Price.
- The Fund only invests in bullion and may experience greater volatility due to single economic, market or political occurrences when compared to diversified mutual funds or unit trusts.
- The Fund has adopted a multi counter and units are traded in HKD, RMB and USD on SEHK. The nature of the multi-counter may make investment in the units riskier than in single counter units or shares of an SEHK listed issuer. Investors without RMB or USD accounts may buy and sell HKD traded units only.
- RMB is not a freely convertible currency and is subject to foreign exchange control policies, as well as repatriation restrictions imposed by the PRC government. Investors whose base currencies of investments are not in RMB should take into account the potential risk of loss arising from fluctuations in value between such currencies and the RMB.
- The Fund does not insure its bullion and the Fund and unitholders could suffer a loss if the bullion held by the custodian is lost or damaged.
- As the Fund is not actively managed, the Manager will not adopt a temporary defensive position against any market downturn. Investors may lose part or all of their investment.
- Trading prices of units on the SEHK are subject to market forces and the units may trade at a substantial premium/discount to the net asset value of the Fund.
- You should not make investment decision on the basis of this material alone. Please read the prospectus for details and risk factors.

Investment objective

The Fund aims to provide investment results that, before fees and expenses, closely correspond to the morning (London time) fixing price of gold per troy ounce quoted in US dollars, published by the London Bullion Market Association (LBMA). The trust is fully backed by physical gold stored in Hong Kong.

Upon the Unit Subdivision becoming effective, the total number of units in issue for the Fund will be increased by a factor of 5, and the price per unit will decrease by a factor of 5. For details, please refer to the announcement published by the Manager dated 28 November, 2025. **6.** The ongoing charges figure is an annualised figure based on the ongoing expenses for the Trust, expressed as a percentage of the sum of expenses over the average NAV of the Trust for the same period. This figure may vary from year to year. The Trust has adopted a single management fee structure with effect from 30 April 2020. From 30 April 2020 onwards, the ongoing charges of the Trust are capped at a maximum of 0.40% of the average NAV of the Trust, which is equal to the current amount of the management fee of the Trust. Any ongoing expenses exceeding 0.40% of the average NAV of the Trust will be borne by the Manager and will not be charged to the Trust. Please refer to "Ongoing fees payable by the Trust" below and the Prospectus for details.
